Shows how much energy is being used and when

Energy Efficient

Optimise comfort and save energy with multiple
time and temperature settings

Attractive Styling

Choice of thermostat finishes and display options

The Flexel-Touch Floor Sensing Thermostat

The new Flexel-Touch is designed to be the simplest to use electric floor heating control available.

The Flexel-Touch comes packed with innovative features to optimise your comfort and minimise running costs with the simplest touch screen interface.

A large full colour backlit touch screen provides simple programming by guiding you through program setup and adjustment - no need for any complicated instruction manual.

Features and Benefits

- Full colour 2.8" touch screen, backlit graphical display.
- Attractive styling available in a range of colours.

- Graphical energy monitor shows you how much energy you are using - allowing you to optimise your comfort and save on your energy costs.

- Easy upgrade option for existing thermostats. Multi floor probe compatibility feature enables most existing thermostats to be upgraded/replaced without changing the existing floor probe.
- Easy installation: choice of 4 factory preset program schedules to get your heating working quickly.
- Screen LOCK feature prevents unauthorised changes to the program schedule.

- Optional remote auxiliary air sensor to provide optimum control for bathrooms where electrical regulations prevent the thermostat being installed in the 'wet' environment.

- Multiple temperature settings can be set throughout the day to optimise comfort and save on energy bills.
- User configured operating mode - One thermostat for all room type applications: Air+ Floor, Floor only, Air only.
- User configured screen colours

- 'First Use' initial start-up program turns your floor heating on gradually preventing thermal shock to new (especially wood) floors.
